

November 3, 1925.

Circular Letter No. 62.

To Supervisors of Schools.

Ladies and Gentlemen:

TRANSFER OF ENGLISH GRADED TEACHERS TO TOWN

In accord with the spirit of former circular letters we wish to insist once more in our recommendations to the effect that English graded teachers working under contract as consolidated rural, should not be considered for English graded vacancies in the urban zone during the course of the year; likewise English graded teachers working under rural contract should not be considered as substitute teachers in the urban zone unless they resign their rural schools and a permanent teacher is appointed in their place.

Yours very truly,

(Signed) JUAN B. HUYKE

Commissioner of Education
